

Dr. Ina Sala PhD MBA DABR
Clinical Director of Physics
Radiation Oncology

The Radiation Oncology department is pleased to announce Dr. Ina Sala as our new Clinical Director of Physics for the USF/TGH/CCSF Radiation Oncology Division as of December 20, 2021.

Dr. Sala comes to us with clinical expertise in multi and single energy Linear Accelerators, high and low dose radiotherapy, and computed Tomography Simulation, as well as External Beam treatment and HDR/LDR planning. Prior to joining TGH, she was Chief of Dosimetry Services and Assistant Professor for the Department of Therapeutic Radiology at Yale University School of Medicine as well as President and CEO for Radiation Physics Consultants. Dr. Sala also served as a faculty member for the Radiation Therapy Technology Program at Gateway community College and for the Dosimetry Program at Grand Valley University.
