

Dear Committee Members of the Wayne State University School of Medicine Distinguished Alumni Award,

I am nominating my esteemed colleague, Nancy Treece MD, for the WSU School of Medicine Distinguished Alumni Award. In looking at past recipients, none of which have been in pediatrics, and so very few women, Dr Treece brings a different story to light.

Dr. Treece's time during Medical School was difficult and challenging, more so for her. During her second year of medical school her younger brother, became gravely ill and died. His death was her inspiration for: completing her studies, her desire to specialize in pediatrics, and continued giving back to the Detroit community.

Dr. Treece through her entire career has been in practice in Detroit, finally fulfilling her dream, opening her own pediatrics practice in Detroit in 2008. She has been involved with: WSU undergraduate merit scholars program, active youth mentoring in her church and other Detroit charities, mentors and sponsors pediatrics residents in her practice, and active member on staff at Childrens Hospital of Detroit. Dr. Treece continues to gives back to the Detroit community, something which is unheard of these days. Dr Treece is a well known pediatrician, respected in the community, always putting the needs of others first.

I highly recommend that the Committee reward Dr. Treece for her continued selfless work in pediatrics, resident mentor and continued support of her involvement in Detroit based charities.

Thank you.

Joyce Blazejewski MD
